Nevada City Nugget

COVERS RICHEST GOLD AREA IN CALIFORNIA

Vol. 10 No. 75. The County Seat Paper NEVADA CITY, CALIFORNIA The Gold Center FRIDAY, JULY 31, 1936.

The Nevada City Nugget helps your city and county to grow in population and prosperity. By subscribing to, and advertising in the Nugget, therefore, you help yourself.

An Open Letter

H. M. L.

Nevada City, Calif.
July 30, 1936.

Mr. Richard Collins, President
State Board of Equalization,
Sacramento, Calif.

Dear Mr. Collins:

According to reports in the San Francisco Examiner, Sacramento Bee and Union, you have virtually instructed some of your board's liquor enforcement officers in this district to work for the election of Senator Jerrold Seawell and against the election of R. L. P. Bigelow, candidates for the state senate.

You have frankly acknowledged that you have given such orders, or "permission" to your employes, paid out of the public funds, but with the provision that they work only "before and after office hours" Your evasion, or attempted evasion, of the state law forbidding state employees to engage in "improper political activity," affronts the intelligence of California voters.

Members of the State Personnel Board report that they have had several other complaints regarding the activity of the Board of Equalization in attempting to influence the liquor dealers for or against certain candidates for the State senate and assembly. I sincerely hope that Mr. Bigelow will force you and other members of your board to a show down.

With the stench arising from liquor law administration in Los Angeles and Alameda counties, and which I am reliably informed is soon to burst out in even more malodorous form in San Francisco, it would seem to the ordinary citizen that your board had enough to do without meddling in, or attempting to influence the choice of the people in their selection of state senators and assemblymen.

Your activity to any reasoning mind can only mean one thing, that is, with the almost continuous scandal that attaches to your board's administration of the liquor laws, you are fearful of what the next legislature may do to you; that you propose to exert all influence you can to elect old friends to seats in the senate and assembly, to insure aid and comfort in a session that is bound to be extremely unpleasant.

I have before me documentary evidence of the political activity of Edwin Beck, your enforcement officer in Placer county. The Placer county Democratic Central committee had sponsored whole-heartedly the candidacy of Mr. Bigelow. Beck canvassed the committee later and obtained six signatures to a round robin letter to Mr. Bigelow, temporarily withdrawing their names from their sponsorship. Subsequently the committee repudiated Beck and endorsed the candidacy of Mr. Bigelow. It is reported, however, that Beck's activity continues among liquor dealers, who as you can well understand are peculiarly susceptible to influences your board may exert.

Two years ago this newspaper supported you, but it will not do so again. I feel that many will take the same view of this matter that I do. No department of government is entitled to the respect or support of tax payers and voters, which attempts to build up a political machine by using tax money. I think that you are not only alienating the friends that formerly supported you, but that you are arousing the distrust of all honest liquor dealers. Not a one of them but must look with misgivings at the vicious power weilded by Mrs. Werner in Los Angeles. The liquor trade's tax burden is heavy enough without loading on its back such costly corruption as the Los Angeles investigation reveals.

Please permit me to suggest, that in the present circumstances especially, it would be far better policy for your board, of its own initative, to ferret out and bring to justice the rascals and parasites that are preying upon the liquor trade, and at the same time destroying public confidence in your organization, than to attempt to influence the decision of the electorate in its choice of state senators and assemblymen.

In justice to Russel B. Farley, your enforcement officer in Nevada county, I wish to state that I am advised and believe that he is strictly abstaining from partisan political activity. I wish it were possible and I believe it would be possible if your board would put its back into its job, that every county in California could have an enforcement officer as thorough, conscientious and efficient in the discharge of his duties, as is Mr. Farley. He obeys not only the letter but also the spirit of the law, which forbids those paid out of state tax funds to engage in improper political activity.

Sincerely yours

HARLEY M. LEETE.

Reno Chamber Praises Work of R.L.P.Bigelow

To R. L. P. Bigelow at the testimonial dinner given recently on his retirement from the office of Supervisor of the National Forest in the Tahoe Area, came a telegram from the Reno Chamber of Commerce. The message voices the appreciation of Reno for all the wonderful planning and work completed by Mr. Bigelow, which made the Tahoe region accessible to the world, and thereby a greater measure of prosperity to this Sierra wonderland. The Reno chamber undoubtedly expressed vividly the sentiment that the people of this entire section hold for the man who is now a candidate for the state senatorship from the seventh district, Sierra, Nevada and Placer counties. The many friends he has made in this section during his period of service here, since 1908, believe that he should be continued in the public service in the State Senate.

The Reno Chamber of Commerce telegram follows:

The Reno Chamber of Commerce desires to add its word of tribute to that outstanding citizen, R. L. P. Bigelow, whom you are honoring this day. More than any other one man he has brought the joys of the forests and the mountains to the thousands who have been enabled through the work of his hands and heart to enjoy a closer acquaintance with our scenic delights. His work, the devotion of a lifetime, has been a work of love, expressed in a manner which befits his kindly character.

Today does not mark the end of his years of service, rather it only marks the end of an official tenure in which he has been so successful, and affords him an opportunity to reconsecrate and rededicate himself to the service of his fellow men in a broader way to his own community.

We hope the entire field in which he has labored will now be enabled to reap the benefit, unhampered, of those years of experience which have fitted him to be a leader. Nearby our own community in a beautiful approach and along the shores of beautiful Lake Tahoe he has builded his own memorial. For his vision and foresight, not alone the people of our community, but the people of the nation, should be truly grateful, and it is our regret that the thousands who will enjoy that wonderful child of his brain, the Mount Rose highway and the scenic Rim of the Lake Highway, cannot know more of the inspiring genius who made these two great works possible. It is our earnest hope that the coming years will rest lightly upon his head and that he may enjoy the rich fruits that are so eminently his.

RENO CHAMBER OF COMMERCE.

POLITICAL ACTIVITY SEVERELY BANNED U. S. FOREST SERVICE

Regarding aspersions cast upon the United States Forest service in this district by the incumbent state senator, the Nevada City Nugget has obtained from Mr. DeWitt Nelson, Supervisor of the Tahoe National Forest Service a statement. This attack upon the integrity and traditional neutrality of the Forest Service personnel in all political matters, will be discussed in Monday's editorial column of the Nugget. Forest Supervisor Nelson's statement follows:

"To my personal knowledge Mr. Bigelow, following his retirement from the office of Forest Supervisor in this district, at two meetings of the Forest Service personally admonished and warned all members to abstain entirely from any activity whatever in his campaign for state senator.

"As Forest Supervisor I have sent out a circular letter warning all Forest Service personnel to observe strictly the Federal regulations which prohibit political activity on behalf of any measure or any candidate. I have never in all my experience in the Forest Service heard of a member of the service even being accused of political activity. One man however, was discharged from the service because he, himself, became a candidate for public office, while in the service."

Englebright Wants To See Work On Debris Dams Begun This Fall

Congressman Harry L. Englebright returned this week from San Francisco where he conferred with the members of the California Debris Commission. He states that the form, summarized below, properly filled out by owners of gravel properties and forwarded to the United States Board of Army Engineers, should be expedited. He is anxious to see work started on some of the debris dams this fall, and urges immeditte action on the part of gravel owners. Appropriations of $6,900,000 are ready, and available for dam construction once the Army Engineering Board has received adequate assurance that the dams will be used.

General E. M. Markham, chairman of the board has defined exactly what the board means by "assurance". It means the same thing that it does in any business agreement, namely, good faith. The board will base its decision upon the good faith of those who fill in the forms. They will be judged just as bank judges applicants for loans, by their character, their financial resources, and by their past record as business men.

Congressman Englebright called attention to the fact that the act of Congress leaves no longer any question of policy to be decided by the California Debris Commission. The commission is instructed to build the dams, once the gravel owners have complied with Army Engineering Board's requirements.

In fact the Debris Commission has been asked by the United States Board of Army Engineers to assist the gravel owners in every way.

It is easy to understand, said Mr. Englebright, why there has been considerable confusion regarding what the hydraulic mining men should do under this new set-up. There were no precedents to guide either the Debris Commission or the mining men. It has been fifty years since all the hydraulic mines were closed down completely, and 1874 saw the shutting down of several of the largest gravel holdings.

In this connection it is interesting to note that while the Relief Hill and Omega properties have satisfactorily met the governments requirements, owners of the largest holding on the Ridge, are demanding that they be accorded one million cubic yards of storage in the proposed Narrows dam, in order that they may give their financial backers the guarantees they feel necessary. Since the Narrows dam will hold only approximately 1,500,000 yards, the Debris Commission cannot entertain this request.

On the American river a somewhat similar situation exists. The owner of one of the largest gravel deposits there refuses to play ball.

Congressman Englebright remarked that if these owners continue to stand out, making demands which cannot be justly considered, the United States Board of Army Engineers may proceed with building of such smaller dams as will be adequate to accomodate yardage of owners who are ready to proceed, and when these are filled, to construct other dams as the need may arise. If the Board of Engineers should take this action, and they have ample authorio do so, it may be some years before owners of two properties mentioned will have another opportunity to store their debris in government built dams.

The form which owners of gravel deposits are now filling out requires these fact to be set forth: What property, or properties, owned with maps submitted, estimates of yardage, as determined by surveys made, with time of survey, water rights owned and the quantity of water available, the amount of yardage that can be moved annually, the gold content of the gravel per yard at $35 per ounce, a description of all water works connected with the property, into which stream the tail water will drain, and an estimate of the cost of operation.

The owner of gravel deposits must make a statement of capital expenditures proposed in ditch construction and repairs, flume construction and repairs, reservoir construction and repairs, also for road, pipe lines and power lines, quarters, shops, warehouses, telephone lines and transportation units. He must list whatever buildings and equipment are now on the property. In addition to this he must file a list of assets consisting of lands, water rights, dams, ditches, tunnels, machinery and cash on hand, less outstanding obligations and mortgages.

Subject to causes beyond his control he must promise to mine annually a given amount of gravel following the construction of the debris dam into which his tailings will eventually drain and guarantee the payment for yardage so mined.

GIRL RESERVES TOUR NEV. CITY

The last of the Girl Reserves of Sacramento camped at Gold Hollow on Lake Vera visited many places of interest in Nevada City Wednesday. Thirty girls chartered a bus from Joe Spence and with their counselors visited the Court House. They found the building was built in 1856 on a granite ledge and the native granite was used in the building to the first floor, the rest being brick. Bain and Israel were the contractors. Many iron shutters remain at the windows, the big doors being removed years ago. These windows are closed to this day when the court house is closed.

The group called on E. J. N. Ott, assayer, who inherited his father's plant and office, which assayed the ore that made Virginia City and Tonopah famous.

A call was made at the new Bank of America building and from there to the basement of the library to visit the collection of 49'er relics.

This is the fourth and last group at Gold Hollow and they will leave August fourth.

CAMPFIRE GIRLS TO GO TO CAMP PAHATSI

Ahdenah Camp Fire Girls held a meeting last night to make final arrangements for their week's vacation at Camp Pahatsi. They will leave for Camp, Sunday. The girls planning to make the trip are, Misses Mary and Jean Martz, Vella and Bonnie Flint, Virginia Carney, Faydene White, Betty Smith, Joyce Henwood, Ruth Godfrey, and Barbara Cain.

Miss Bernice Hancock of Auburn will be in charge of Camp Pahatsi this year and a dramatic instructor from Roseville will instruct the girls in putting on plays and evening programs. An interesting week has been mapped out. The girls will take up nature work, craft, swimming and hiking. Mrs. Leland Smith will motor to camp with several of the girls.

Mr. and Mrs. Allen Saban and daughters, Margaret and Catherine, Mr. and Mrs. A. J. Rore and two children, Betty and Walter, and Leslie Orzalli spent the week end in Reno, Nevada and at Lake Tahoe.

CUBS THIS WEEK ENJOY PAHATSI

Camp for Cubs of Nevada and Placer counties started Sunday with 58 in camp. The Cubs were divided into dens of seven cubs each with a Scout called a den chief. There are two packs with three dens in each pack. The camp staff for the cubs consist of H. Ricksecker, camp director, Sam Partridge, assistant camp director; Wm. Burns and Ken Reynolds, cubmasters; Harris Paxton and Robert Keeny assistants; Bob Robinson, nature; Forrest Rupley, waterfront; Russ. Stephen, mess officer; Bill Cluff, assistant and in charge of the campfires; Bob Wilson, truck; Eric Beckerleg, store and office; Den chiefs: Bruce Kimsey, Jim Ricksecker, Frank Kengle, John Muscardini and Ken Ricksecker; M. S. Beecher, handicraft, Mrs. Dalby, cook.

Tuesday the Cubs were taken in cars up to Lake Van Norden for a picnic and weinie roast. Other features of the program which they will enjoy during the week are frog hunt and race, marshmallow roast, pack campfires, amateur hour, nature treasure hunt; sail boat making, and races on the lake; fishing, circus, making of souvenirs, short nature hikes, blue printing, spatter work, boating, swimming, games, instruction in cub tests and campfires.

Six Cubs are learning to swim, having made about ten feet after two days of instruction.

CAMPFIRE GIRLS GOOD PATRONS OF NEVADA CITY

Miss Gladys Bennyhoff of Camp Celio was settling the local bills of the camp Wednesday. It was revealed several thousand dollars are spent in Nevada City by these camps during their camping period, when they patronize the drug stores, meat markets, groceries, candy stores, ice company, laundry and milk man.

Some of these girls have spent the third year at the different camps. They are enthusiastic over the camp and the county and are good little boosters. Fifteen counselors are at Camp breaking up for the winter to come.

In a few days Miss Bennyhoff will go to Lake Tahoe to take charge of a group of between 40 and 50 Camp Fire Girls of Reno, Nevada, who are to spend two weeks at their camp on the lake.

Mrs. Anna Godfrey cut her finger Wednesday. Dr. B. W. Hummelt attended her.

NEXT PRESIDENT MAY BE ELECTED BY THE HOUSE

"The national political situation is spotted for and against either Republican or Democratic candidate" this was the summary of Congressman Harry L. Englebright yesterday. "It is definitely known now, however, that the New England states are against President Roosevelt. A Republican victory seems assured there. In New York the Roosevelt forces are battling determinedly. They have induced Governor Lehman to run again with the hope that they will be able to poll a sufficient majority in New York City to offset the majority which the Republicans in the upstate undoubtedly hold there.

In Pennsylvania a big steel strike is imminent and the administration is doing everything in its power to avert the conflict until after the election. If the strike occurs, its effect may be to throw Pennsylvania either way.

The Lempke vote, it is estimated, will be about ten per cent of the total vote in the Dakotas, Minnesota and Nebraska, with a possibility that Wisconsin will also show a considerable vote for the third party. Ten per cent in a close election may mean a great deal. It is estimated that Lempke is taking seven Democratic votes to one Republican. These states are normally Republican and the outlook for this party in those states is accordingly very bright. In the Middle West generally the situation is far from clear. Drought relief and farm relief generally have complicated conditions but the Republican prospects there are not gloomy by any means.

In Illinois the Democratic party is divided in two factions which are fighting bitterly and there is a very good chance of a Republican victory. Michigan is safe for the Republicans.

California, as we all know has registered a great majority under the Democratic banner, but I was told while in San Francisco that there is a statewide swing toward Governor Landon.

Of course there is a possibility that Lempke will poll enough votes to make the Democratic and Republican race so close that the election of the President will be thrown into the House of Representatives.

If this should occur the party majority in the House will elect the President. That is why there is such an intense fight now going forward in every Congressional district in the country That is why I am opposed in this district. I think it probable that a majority of Republicans will be elected to the House this year," concluded Mr. Englebright.

MRS. JACK WOLFE WILL SING WITH OPERA CO.

Mrs. Jack Wolfe, former resident of Grass Valley, now residing in San Francisco, has become a member of the San Francisco Opera Company. She will sing in several operas in that city with the beginning of the season in November. Mrs. Wolfe has a splendid voice and often sang in public in Nevada City and Grass Valley. She is a student of Mr. Marshall Giselman of Nevada City and her wide circle of friends wish her every success.

SUES FOR $10,262 FOR AUTO CRASH DAMAGES

Frances C. Dunn and W. R. Dunn, San Francisco attorney, filed a damage suit in the superior court Wednesday against Lloyd K. Hillman, asking $10,262.50 for injuries Mrs. Dunn incurred in an automobile accident near Soda Springs on August 5, 1935.

The complaint charges Hillman was operating a caravan of twenty-four automobiles and two of the machines drove into the Dunn automobile, causing damages to the car and injuries to Mrs. Dunn.

BOYS, GIRLS WANTED FOR WATER PAGEANT

Verle Gray, life guard and manager of the swimming pool in Pioneers park has issued a call for fifteen or twenty boys and the same number of girls, to take part in the Water Pageant cast which is to be given during the third week in August. Rehearsals for this event begin within a few days.

Committees of the park commission in charge of this annual event follow: Mrs Leland Smith and Mrs. George Gildersleeve, script, cast and costumes, H. M. Leete, seating accomodations, and publicity, R. J. Bennetts and P. G. Scadden, ushering, parking and admissions.

Verle Gray wishes to call attention to the fact that all boys and girls under twenty one years of age are admitted free, unless they desire to rent a towel and locker, for which there is a charge of ten cents. Recently a youngster reported to his mother that he had been charged ten cents for admision, whereas, the fact was, he spent his dime for ice cream cones.

BIG OAK TREE MINE

Crews are taking out ore to the east and west of the shaft on the 300 foot level at the Big Oak Tree mine south of the Idaho-Maryland property. Two shifts are employed and 20 tons of ore per day are being trucked to the Idaho-Maryland custom mill for gold recovery. C. O. Mittendorf is owner of the mine and Frank Channing superintendent.

The White Man's Burden

(Contributed)

The Indians of California are on the war path again.

It's not scalps they're after, this time, nor are they mobilizing to repulse a new invasion of "pale faces." They are aroused because a law they pushed through Congress at the recent session was vetoed.

The law was an amendment to an act approved in 1928, which authorized the Indians to sue the United States for pay for lands, goods, and other benefits promised in the "Eighteen Lost Treaties" negotiated in 1851 and 1852. It would have made possible suits totalling $35,000,000 instead of just ten or twelve millions, as is now the case.

Of course the Indians are not trying to get back the land itself. But, in view of the hazards of land-owning these days, it might be a break for white man if they did. There is the continual struggle against droughts, insects, weeds and taxes. And now there is this new threat in California to try to support the whole state treasury by a tax on land alone—the Single Tax.

Although such was not what Kipling meant by the phrase, nevertheless land seems to be qualifying as the real "White Man's Burden." And if this latest tax blow falls on land, we might just as well give it back to the Indians to let it become the Red Man's Burden.

LIVE OAK MINE

Jones and Gladen took over the Live Oak Meda property near Weimar two years ago. A drift has been driven to cut under old workings and an ore bearing dyke has been developed. Sufficient ore is reported in sight to warrant purchase of a mill. Plans are underway to set up a 25-ton unit including primary and secondary crushers, ball mill, and flotation cells this fall. Four men are employed under ground.

MAURICE PHOTOGRAPHER 107 Mill St. Grass Valley

The studio that satisfies. Good photos at reasonable prices—no guess work. 8-hour Kodak finishing service.

CCC CAMPS GIVE BOYS TRAINING FOR LIFE WORK

Any young man who is eligible to enroll in the CCC and does not do it is making a huge mistake, in the opinion of DeWitt Nelson, supervisor of the Tahoe National Forest at Nevada City. Nowhere else, says Nelson, is there the same opportunity to build physical and moral character and learn to coordinate mind and muscle in such healthful environment.

The camps are conducted by army officers who have now had several years' experience in managing them and maintaining just the proper degree of government necessary for the training of the young men without the severe discipline of the regular army They are men with families of their own who take a keen personal interest in the welfare and development of the young fellows.

Capable educational directors see that their mental faculties are not allowed to atrophy. The technical service superintendents and foremen direct their energies in the field teaching them how to do a good day's work and feel proud of it; and often teaching them vocations which will serve them well in private life.

But the biggest value, Nelson feels, is that re-creation of mental and physical virility and resourcefulness that seems to come from contact with the soil, and living and working in the "wide open spaces."

"Just this week," Nelson said, "I had the pleasure of appointing Francis Packer of Nevada City as a tractor operator in the Forest Service at a good salary. He learned to operate a artctor in the CCC's and through his industry and intelligence recommended himself to us. But that is only part of the good he received from his service in the corps. We cannot of course, assure all the young men positions; but their service in the CCC is going to be of incalculable value to them regardless of what trade or profession they take up for their life's work."

Mr. and Mrs. A. J. Goggan and daughter and son of Tahoe City were business visitors in Nevada City yesterday.

Social Events

Miss Freida Touth Weds Fred Crabbe

Miss Freida Touth and Fred Crabbe were united in marriage Saturday evening in the Methodist church with Rev. H. H. Buckner officiating. Miss Ruth E. Ebber was maid of honor and John Mensch was best man.

The bride has lived in Nevada City for some time, coming here from South Dakota.

Mr. Crabbe has made his home in Nevada City for a number of years. He is an engineer in the employ of the Empire Star bine in Grass Valley, a past grand of Oustomah Lodge No 16, I. O. O. F. and an active member of the Methodist church.

Following the wedding refreshments were enjoyed at the home of Mr. and Mrs. Henry Salter on Spring street.

The young couple will make their home in Nevada City.

Mrs. Carl A. Libbey Hostess at Art Exhibit

Mrs. Carl A. Libbey most graciously entertained members of the Civic Club and friends Wednesday afternoon and evening at her beautiful home on Broad street where an exhibit of pictures of Mr. Clifford Warner, the artist, were exhibited. Mr. Warner is leaving for Downieville to spend some time and the club was anxious that everyone view the paintings. Several new pictures of North San Juan, made by the artist recently, were on exhibit for the first time and consisted of the old opera house, old homes and barns, all having a quaint touch of early day period. There were also many fine views from Nevada City and Grass Valley on display.

A delightful feature of the afternoon and evening entertainment was the exquisite playing of Miss Rosemary Richards, niece of Mrs. Libbey. Those assisting in receiving were Miss Savory Ford and Mrs. E. M. Rector. Assisting in serving were Misses Margaret and Ruth Rector, Betty Bettles, Mary Jane Warnecke, and Rosemary Richards. Delicious strawberry ice was served the guests.

CONCRETE POURING IS BEGUN ON CHEIM BLDG.

Forms are up and reinforced steel has been practically installed for the cement wall on the Deer Creek side of the lot in the "burnt district". Pouring concrete started yesterday. The wall will be about 100 feet long and 15 feet high, with 18 inch width cement base, tapering to nine inches at the top. The concrete foundation is poured in the forms for the service station and construction of the building should start in a few days Mr. Isador Cheim of Marysville is owner of the property. Work is being rushed to complete the new buildings as rapidly as possible.

ROUGH AND READY MINE

The historic Rough and Ready gravel mine near Dutch Flat is producing steadily. A crew of six is engaged in drifting and taking out gravel. The Trixie Mining Company started operations last fall and installed a complete gravel outfit. William Certon is superintendent.

CROWDED OFF HIGHWAY

Mr. Hector McNeill, who is operating a placer mining property near Camptonville, reports he was crowded off the road by a motorist coming from the south, this side of the South Yuba River bridge Wednesday while enroute to Nevada City.

The car rolled down an embankment 75 feet before coming to a stop on its side. Mr. McNeill was brought to Nevada City and Dr. B W. Hummelt dressed a cut over an eye, a badly bruised leg, and other cuts and bruises.

WANTED MAN ARRESTED

CAMPTONVILLE, July 30.—Word has been received from the sheriff's office at Marysville, that Ernest Kretchmar, wanted here since last October on a charge of burglary and petty theft had been captured at Mariposa. Sheriff McCoy sent for him, and he will be detained in the county jail until arraigned before Judge Acton M. Cleveland.

The complaint was sworn to last October by A. J. Massa who alleges that Kretchmar broke into his house and stole a pistol, quicksilver and other personal property.

WARDEN ARRESTS FOUR

Mr. E. J. Willard, captain of the fish and game commission in this district, arrested four men Monday, July 27, at Lake Fordyce in the high Sierras for allegedly having a 1,000 foot set line in the lake to catch fish. Their names are Matt Lendo, A. M. Meidl, A. Marseano and Max Payer.

The men appeared before Judge W. L. Mobley Wednesday forenoon and plead not guilty.

85 cents Change Out of a Dollar . . .

Your Nevada County Narrow Gauge Railroad supports a large family. It is the mainstay for comfortable, homey cottages of its employees in Grass Valley and Nevada City. It is proud of the good citizens it employs; men and women who add to the constructive value of the cities in which they make their homes.

Then, too, the Nevada County Narrow Gauge Railroad helps in the support of many other families, not directly connected as employees. They are the merchants, the supply dealer, and all those members of that great diversified group locally handling materials your railroad must use in its maintenance and operation.

Eighty-five cents is the lion's share of the dollar. Yet eighty-five cents out of every Nevada County Narrow Gauge Railroad dollar goes back to the community in wages or material purchases!

Additional money goes into county and city channels in the way of taxes. Part of the upkeep expense of roads, streets, schools, parks, playgrounds, etc, is borne by your railroad.

It's a "home" institution, proudly serving an appreciative home people.

CLUB VOTES NO ON MORE ROADS IN MOUNTAINS

SAN FRANCISCO, July 27.—California's undeveloped high mountain areas have been reduced "dangerously near to a minimum for the welfare of the state."

Future road building into the high mountains — "without convincing proof of public necessity"—should be stopped!

That was the overwhelming verdict of the Commonwealth Club of California in a postal vote of its entire membership, the results of which were announced today.

RESOLUTIONS ADOPTED, 650 "YES", 70 "NO"

By a vote of 650 "yes", to 70 "no", the club adopted the following resolution:

"Resolved, that California's undeveloped high mountain areas have been reduced dangerously near to a minimum for the welfare of the state, and that no further intrusions by the building of roads should be allowed without convincing proof of public necessity."

BOTH SIDES HEARD

The ballot of the club followed a study by the Section on Forestry and Wild Life, during which representatives of organizations favoring additional road building in the Sierra and other primitive mountain regions were heard, as well as representatives of groups opposing further invasion of California's solitudes. The section adopted the foregoing resolution by a vote of 57 to 2. In accordance with Commonwealth Club custom, arguments approved by both sides were presented to all the club members prior to their vote on the resolution.

It was brought out by the section that there is today more mileage of reads per square mile of land area in the mountain regions of California than is found in the state as a whole. Of California's one hundred million acres of land area, the section reported, only six hundred thousand acres of undeveloped mountain land lies more than ten miles from an existing road.

"A horseman can ride from an existing road into the heart of any one of the thirty undeveloped areas in an easy one day ride," the section report stated.

WILDERNESS HELD VANISHING

Pointing out that "there are a number of proposed roads that would open up a large portion of the six million acres now inacessible by road," the section report added that "the ultimate pattern of the California mountains, unless the present trend is checked, will be made up of roads ,excessive development, poor hunting and fishing, and a large body of exploiters."

"Just a few more years of hesitation," the section report stated, "and the only trace of that wilderness which has exerted such a fundamental influence in moulding American character will be in the musty pages of pioneer books and the mumbled memories of tottering antiquarians."

BOARD NAMED TO SELECT STATE'S SAFEST DRIVER

Headed by Ray Ingels, Director of the State Department of Motor Vehicles, the personnel of the board of judges who will select this state's delegate in the nationwide safe driver motorcade has been announced by the California State Automobile Association. The motorists' organization is in charge of arrangements for selection of the California representatives, as are affiliated A. A. A. clubs in other states.

Besides Ingels as chairman, the judges are Mrs. W D. James of Hanford, president California Federation of Women's Clubs; Dan W. Emmett of Santa Paula, State Commander American Legion; Assemblyman William B. Hornblower, San Francisco, chairman Interim Committee on Motor Vehicle Legislation; and Sheriff Eugene Biscailuz, Los Angeles, president California Peace Officers Association.

Ingels will call a meeting of the judges at an early date in San Francisco to canvass the large number of entries received from men and women in all parts of the state. The motorist chosen as California's most representative safe driver will drive to New York City with expenses paid to take part in a safety conference on August 31 with delegates from all other states.

Entries closed July 22. Eligibility rules required that contestants must be active drivers who have driven private passenger automobiles without compensation for more than ten years, with not less than 50,000 miles traveled in that time and a record free of accidents or traffic law violations.

Mr. John R. Pavilla of Monterey is visiting his daughter, Mrs. Christain Andersen and family in Nevada City.

NUGGET ADS PAY

COPPER ORE SPECIMENS

Mr. K M. Nelson who is developing a property near French Corral brought a sample of ore to the Nugget office Wednesday that is reported to contain about 16 per cent free copper in an 18 inch ledge.

Some of the last quotations on copper were better than nine cents and coming from that district the ore should also contain some gold and silver. The nearest smelters are Salt Lake City, Utah, and Seattle, Washington. It is claimed oftentimes if shipped for gold recovery the copper will pay mining, shipping and smelting charges leaving the gold as velvet, or gain.

Mr. Elmer Peterson left Thursday morning for San Francisco to undergo a medical examination. He received injuries to his back April 21 when a monitor fell on him at the Relef Hill gravel property.

CAMPTONVILLE LAND TRANSACTIONS

Two important land transactions took place during the past two weeks. Mr. and Mrs. J. E. Aycock, who have owned and operated the old Nelson Ranch at Garden Valley for the past several years, have sold the place to James B. and Mary Conroy of San Francisco. The new owners expect to continue the ranch business. Mr. and Mrs. Aycock will go to the southern part of the state where they have other interests.

Dave Humphrey, life time resident of the Mill Creek section where he conducted the Humphrey ranch, and raised fine potatoes and other produce, has traded his ranch to Leslie L. Shimer for some property at San Bruno. The new owner has taken possession and Mr. and Mrs. Dave Humphrey and two sons Billie and Freddie have gone to Corning where he expects to become located. Humphrey has been prominent in community, particularly school affairs, and he will be missed from the community.

Mr. and Mrs. C. F. Wolcott of Pasadena are visiting Mr. and Mrs. Ralph Alden in Nevada City.

WEEKLY COMMENT
BY
Christian Andersen

Seen on the streets of our city. W. E. Moulton of North San Juan eating an ice cream cone while inspecting a dented fender on his car and talking to a friend.

A group of hot citizens resting on the fire hydrant on the northwest corner of Pine and Broad. There is a bit of a breeze between the buildings.

I have listened avidly to every political speech over the radio ever since the conventions began. Some of the speakers should take up tap dancing. Makes me feel like the Indian who went to hear a great orator and later was asked what he thought of the speech. "Ugh much too many words!" F. D. R. is the best speaker of them all. The democrats put on the best show and wrenched every bit of drama from their activities. The Republican National Chairman Hamilton has a lot to learn about what not to say. Landon talked like a scared schoolboy, although his speech carried many good thoughts. (I hope Hearst does not see the above paragraph.)

The present civil war in Spain is in reality a battle for control between the religious interests and monarchists on one side, and the communists party on the other. The religious people are fighting with the fervor of crusaders and at the moment seem to be winning.

The new State Fair amateur program got under way Saturday evening at the Strand Theatre in Grass Valley. Five acts were scheduled to appear but for some unaccountable reason only two showed up. Burlington Hooper was the evening finalist, his artistic rendition of Danny Boy richly merited the enthusiastic applause which was accorded.

Came Sunday and invited to spend a day in the country to let the children swim and we enjoyed camp food including the succulent hot dog. Stayed by the campfire till the moon limned the trees and dark shadows gave ghosty shapes to brush and leaning rocks. And there are no more robust or pleasant phrases than the parting words "we've had a swell time," and the invitation "come again."

NEW HOME

Mr. James Allen who is residing on the Genasci ranch in Willow Valley is to build a fine new home on lots he owns near the Nevada City high school.

STATE INCOME TAX TAKES JUMP

In California, income tax collections by the Bureau of Internal Revenue for the calendar year 1933 totaled $56,804,104. For 1934 the amount was $56,623,353, while in 1935 the total reached $75,338,162, it was announced by Donald Renshaw, Director for the National Emergency Council.

It is noted that the 1934 collections show a 3.2% increase over 1933, while the 1935 amount reveals a 32.6% increase over 1933

A LITTLE BRAGGIN' ABOUT SAFE GRUNOWS
The refrigerator ads in the magazines certainly are good looking. Colored pictures . . . sweet looking housewives in dream kitchens, and a lot of fancy talk about streamlined conveniences and gadgets.
But did you ever notice that the refrigerant is never mentioned except in GRUNOW advertising? There's a reason! Only Grunow has CARRENE—the super-safe liquid refrigerant. The rest of the manufacturers aren't so proud of their refrigerants. I guess that's why they avoid that subject in their ads.
Yours for SAFE Grunows,
Bill Rumsey
P.S. The new Grunows have all the new gadgets, too, and they are real beauties.

PRIVATE PROPERTY

Chief of Police Garfield Robson and Deputy Charles Ninnis went into the lower section of the Gregory estate that faces on Deer Creek early this week and routed out several undesirable persons who had decided to camp in the cool, shady spot near the spring This is a private property and through the courtesy of the owners the beautiful grove of trees is almost looked upon as a park. It is a delight to walk through it on warm days. Hundreds of children and adults take a path through the woods to the swimming pool and Kopps auto court.

Mrs. R. Fitzsimmons and two daughters are spending a two weeks vacation at Neptune Beach near Oakland.

MOUNTAIN TOWN HOMECOMING

Forest, Sierra county, has made all plans for another of their annual "home comings" over the week end. This year their fine swimming pool has been completed and is to be dedicated with appropriate ceremonies. The program for the two-days will be along the lines of a carnival with water sports and contests, and a big dance Saturday night. It is reported a $10 nugget is to be awarded in one of the contests. While the "home coming" celebrations have been held only a few years, it is growing in popularity and Forest is expecting the largest crowd they have ever entertained as many persons will return to their former home town and others will seek this beautiful cool spot in the high mountains for an outing. Several from Nevada City have made plans to attend the celebration.

RISING SUN PROPERTY

Nine men are employed two shifts and clearing the shaft is progressing at the rate of seven feet per day. The program underway calls for clearing and re-timbering the shaft to water level, de-watering and reconditioning the balance of the shaft and sinking an additional 300 feet. Levels are to be cut each 100 feet as sinking progresses. About 500 tons of old tailings that assay well are to be re-worked. L. A. Hughes represents the Rising Sun Mining Company of New York.

Father J. J. McGary of Maxwell visited with Father J. P. O'Reilly in Nevada City, Monday; he also met many former friends.

TAKE INTEREST IN POLITICS AND REDUCE TAXES

"How Can I Reduce My Tax Bills?"

Thousands of California taxpayers undoubtedly ask themselves that question every year, when tax bills become due and payable. Many protest bitterly to their local officials; others go the 'rounds of the court house or city hall, vainly seeking an adjustment. But finally the average taxpayer throws up his hands in despair, pays the bill—and wanders home muttering imprecations against "politics and politicians"!

The farmer returns to his farm; the business man to his business—and the question goes unanswered, perhaps because the answer requires intelligent application to the problems of government, conscientious citizenship, time, work and energy. Fundamentally, the only answer to the question—"How can I reduce my tax bills?"—is simply this: "By being a better citizen, a real partner in the business of government"!

Individually, the average citizen can do little toward solving the problem. But collectively, average citizens—with their wives, their neighbors, their friends and business associates—can work out their own salvation. And no one else can do it for them. Increase the number of citizens actively participating in government and many of the present tax problems will quickly disappear, if the new working citizens are both intelligent and vigorous! And if government takes one-fifth of your income, certainly it deserves one-fifth of your time and energy.

Still interested in the basic question of reducing your tax bills, you may ask: "Where do we begin?" "How do I go to work at this business of government?"

Again the answer is simple and direct. The local political unit is the cornerstone of all government; in the ultimate anaylsis, the cities and counties determine the trend in both state and national government. And local government, because it is close to the people, depends almost entirely on those who take active part in its deliberations. Fifty alert and determined citizens—unselfishly interested in improving their public service and reducing its overhead—can revolutionize local government in the average small community. But they must be actually and conscientiously unselfish— willing to take less in service to pay less in taxes!

For the taxpayer contemplates an active partnership with government, here are some of the "fundamentals" of the business.

Give more intelligent attention to the election of the legislative officers who make the laws regulating the selection and management of the government rank and file. And pay more attention to the election of the executive who appoints the boards and commissions administering those laws.

Keep a vigilant eye on all governmental budgets; the only sensible way to balance a budget is to determine the revenue which can be raised without undue hardship and "cut the cloth to fit." Budget-making-time is the time to reduce your tax bills.

Study "fixed charges" in both local and state government (the charges which can't be reduced by local or state officers)—and vote carefully and intelligently when new proposals are made to add to the "fixed charge" load. "Fixed charges" of the state government today total $296,000,000 per biennium—68 per cent of the entire budget! Some of these charges are undoubtedly justified; others were secured by militant organized minorities, while the tax-paying majority "slept at the switch."

Insist on sound planning of governmental business, as you would in private business; to be economical, government should be placed on a long-range basis.

Demand that government be kept on a pay-as-you-go basis. Halt unwise bond issues and governmental borrowing which doubles and trebles costs with interest and redemption charges.

Study the various "tax exemptions" now allowed special groups and types of property—and weigh carefully your action on further exemptions of this nature. Again, some may be justified, but keep in mind that an exemption is actually an indirect appropriation of public funds to a special class or group—and that the non-exempt must foot the bill!

Determine sound ways and means of simplifying governmental procedure—eliminating unnecessary governmental units and services.

Above all else, the taxpayer who has determined to become an active citizen, should purge himself at the outset of the fault of "blaming the politicians" for the ills of government. Usually government officers reflect the citizenship of their various communities—and their private opinions of the intelligence of the average voter are often (and sometimes with complete justification) just as uncomplimentary as the voter's opinion of his public servant. To lower your tax bills, first admit your complicity in making them what they are—and then go to work as an active partner in the business. It will pay real dividends!

SCRIPT BOOKS FOR STATE FAIR

SACRAMENTO, July 30.—California's glamorous state fair in Sacramento, September 5 to 14, can be seen for 25 cents.

The bargain price was made available this year by the State Fair Board for the third time, when it determined to issue scrip books containing 10 admission for $2.50. The regular admission price is 50 cents This is reduced by half when ten admissions are bought in scrip.

A. B. Miller, Board President, explained:

"The plan of providing a 25 cent admission through purchase of the $2.50 scrip books has worked so successfully in the past two years that we plan to use it again. It is the best system that we have yet devised to enable every person in the state to see the fair at an extremely low price. Scrip really makes the exposition the people's fair."

Harold E. Smith, who is in charge of scrip announced the sale of reduced admissions will start in August, the actual date to be announced. The sale will be handled as formerly by the 4-H club and Future Farmer groups and by business houses throughout the state.

Scrip is good for admission to the grounds or grandstand, or horse show, or parking lots. Smith's advice is to make plans now to buy scrip so that the promised greatest fair in the state's history can be seen for half the regular price.

LEGAL NOTICES

Application 8665
NOTICE OF APPLICATION TO APPROPRIATE WATER

NOTICE IS HEREBY GIVEN, That San Juan Ridge Mutual Water Association, (care of F. C. Homer), North San Juan, California, has under the date of May 15, 1936, applied to the Division of Water Resources, Department of Public Works, State of California, for a permit to appropriate unappropriated water, subject to existing rights.

DESCRIPTION OF PROJECT

Water to be appropriated from Weaver Creek (also known as Rattlesnake Creek) tributary to Middle Yuba River, County of Nevada.

Amount applied for: 20 cubic feet per second. Diversion season named: December 1st to July 31st of each season. Water to be used for mining and domestic purposes.

Point of diversion within SE¼ of NW¼ of Section 3, T 18 N, R 11 E, M. D. B. & M.

Place of use described: Within NW¼ of NW¼ of Section 1, T 17 N, R 8 E, M. D. B. & M.

Water will be returned to Shady Creek within SE¼ of SE¼ of Section 2, T 17 N, R 8 E, M. D. B. & M.

RELATIVE TO PROTESTS

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permit shall within 60 days from date hereof file with the Division of Water Resources, Sacramento, Califoria, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the application and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of protestant's land or place of use and point of diversion of the water.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

Dated: Sacramento, California, July 9, 1936.

EDWARD HYATT,
State Engineer.

July 24, 31, Aug. 7, 14.

CAMPTONVILLE WOMANS CLUB GIVE PARTY

The card party staged by the Womens Club of Camptonville held at the Masonic Hall Friday evening proved a big success and a good time was enjoyed by all. Several tables were conducted and some good playing was displayed. The first prize was won by Myron Pauly, second by Postmaster Lydia O. Groves, and Edward Lang the booby prize. Following the playing refreshment consisting of home made cake and lemonade was served.

The proceeds went into the club's treasury for expenses of the club. Another social function is planned for the near future.

MACHINERY FOR SHOE SHOP

Mr. Norman Kistle of Nevada City has installed the newest and latest method machinery to cement soles on ladies shoes with a Badger Shoe Press. Nails or thread are are not used and the new method makes the shoes water and heat proof. It will take 30 minutes for the cement to dry, the shoe is pressed firmly down on a rubber pad that gives an even pressure on the soles.

Enjoying a picnic and vacation at Big Bend Ranger Station Sunday were Mr. and Mrs. Charles Elliott, Mr. and Mrs. R. E. Harris, Mr. and Mrs. John O'Neill, Mrs. Frank Davies and son, Craig, Mrs. Nell Furrier, Mr. and Mrs. Robert Carr and son, Robert, Jr., George Walling of Nevada City is in charge of the national forest camp.

BIG MEXICAN ESTATES DIVIDED AMONG WORKERS

BERKELEY, July 30.—Mexico's huge estates, relics of the old Spanish land-grant days, which have in some cases run into millions of acres and invested the owners with all the power of a feudal lord over his tenants, are being broken up and distributed to the common people as rapidly as the Cardenas government can push its program, according to Professor Herbert I. Priestly, professor of history and librarian of the Bancroft Library at the University of California.

Professor Priestly, whose special province is Mexican history, has just returned from an extended stay in Mexico, during which he studied the result of the Cardenas reform movement at first hand.

The subdivision of large estates, started under Presidents Carranza and Obregon, languished under the rule of subsequent presidents until Cardenas took the helm. Since his taking office, says Professor Priestly, subdivision, with corresponding grant of small farms to the common farmers, has been extended into states which were not touched by his predecessors and renewed in others, such as Colima.

Nor is the government making any attempt to pay for the land, having dropped the sham of giving indemnity in bonds. The common people are so taken with the idea of owning their own land that at the president's suggestion they have organized agrarian militia in many places to prevent the landed gentry from making any attempt to turn the tables.

The result has been an increasing enmity on the part of the wealthy conservatives. Cardenas, himself, despite his popularity with the common farmers and laborers is dependent, just as all Mexican presidents have been, on the support of the army, some of whose most influential generals are themselves large land-holders. Professor Priestly, believes, however, that the army, better educated and more honest than ever before, and possessed of a new professional spirit which marks a distinct break with the past, will remain loyal Thus, barring anw widespread discontent, the Cardenas government should remain in the saddle until the expiration of its term in 1940.

Personal

Dan Henry, employed at the Spanish mine at Washington, severely cut his thumb while at work this week, which Dr. W. B. Hummelt also cared for.

Mrs. Alta Rowe and son Harmon Rowe and Robert Bruener motored up from Sacramento yesterday to visit the Clifford Warner art exhibit sponsored by the art club at the home of Mrs. Carl Libbey, Wednesday.

Attorney George A. Tibbe of Yreka arrived in Nevada City Monday with several friends on a business trip. It was Mr. Tibbe's first trip to this section, and he was pleased with the country. He is on old-time friend of Mr. R. L. P. Bigelow.

Vernon De Rocco, on furlough from the navy is visiting Mr. and Mrs. Maurice Kach in Grass Valley. De Rocco was formerly on staff of the Maurice Photograph Studio. In the navy he has been engaged in aerial photography.

FORMER RESIDENT MARRIED

Miss Helen Reis, daughter of Mrs. Martha Reis and the late Rev. George Reis was married in Carson City on July 1*, to Carl E. Miller Mrs. Miller, formerly lived on Nevada street, this city.

CITY OF SIX CHANGES HANDS

It is reported the famous old City of Six mine near Downieville has changed hands. Mr. D. E. Hunter of Los Angeles, an elderly man who has been ill for several months, has sold Mr. Cole is the present manager and Mr. Herbert Cass Thompson of Los Angeles is expected at the property any day to take an interest in the mines development. The theme of the novel, "City of Six" was written around this property which has been a rich producer in the past.

Alfred Flagg, a native and former resident of the Indian Hill section returned Thursday to the place of his birth after an absence of 43 years.

Mrs. L. R. Ayers and son and daughter of Oakland are visiting Mrs. Ayers' sister, Mrs. Glenn Cleland and family.

Nevada Theatre

FRIDAY

THE SKY PARADE - Jimmie Allen in a hot spot 10,000 feet up, with a murdered aboard, phones: "Clear field. Here I come."

SATURDAY

TIME SQUARE PLAYBOY - A big shot (Warren William) from a small town has a hot time in the Big Town. June Travis humbles the hero who boasts he would never fall for any dame.

SUNDAY AND MONDAY

ABSOLUTE QUIET - A story of a heavy hero who seeks the seclusion of an isolated ranch to rest his frazzled nerves. The things that happen there are a screaming comedy, blended with a melodrama and mystery.

Thru the Knot Hole

A Glimpse of Building Activity

Vol. 1. JULY 31, 1936. No. 36.

Pouring of concrete is underway on the new Standard Oil Service Station at the Plaza. This improvement is being installed by the Markwart Company for the Standard Oil Co., and is a new type of installation with the latest improvements.

Celotex to cover old plaster ceilings is finding more and more favor. This fine board is available in several finishes that make painting unnecessary thereby giving a very economical job.

Contractor Howard Ross has completed a modern front for the Rose Fashion Shop at the corner of Pine and Commercial. Mrs. Rose now has an up to date building in which to carry on her business.

Two more Bestile installations for bath rooms sold during the past week. It will pay you to look at this material before improving your bath room. Suitable also for a clean, beautiful modern kitchen. For new or remodeling work.

Contractor Ralph Cochrane has recently completed a shed addition to the large plant of Helbach Motors in Hills Flat. The added space was badly needed by the Helbach Motor Co.

Your cabin job or your new house in town can be properly constructed with materials from our stock. We have a number of patterns of rustic and other exterior finishes and can suit any taste.

Disappointed Convict (back on the rock pile after several years) "T'aint changed a bit, 'as it? You'd think after all these years they'd have introduced some labor-savin' devices."

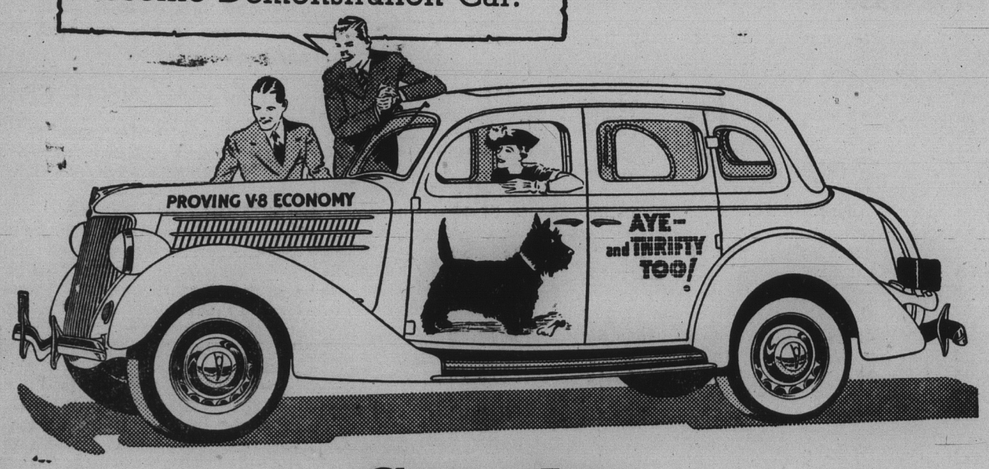
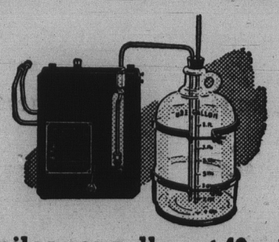
Take a drive in our "Scottie Demonstration Car."



See the New Gasoline Economy of the FORD V-8— demonstrated before your eyes!

WE have painted up a "Scottie Car" simply to demonstrate the increased mileage of this new 1936 Ford V-8. *It is not* a "special" Ford car. It is a regular 1936 stock model Ford V-8 with distinctive exterior decoration and a glass gallon jug connected with a Zenith tester. No adjustments have been made to make it perform differently from any new stock car. The jug is added so that you can see a measured amount of gasoline used with your own eyes, instead of having it come from the tank at the rear.

Take a ride in a "Scottie Car." See for yourself that a Ford V-8 is just as economical on gasoline as smaller, less powerful cars. You can arrange it without cost or obligation by calling—*YOUR FORD DEALER*



20 miles per gallon at 40 miles per hour constant driving speed—see it for yourself with glass measuring tank.
